

Agr International, Inc., a Western Pennsylvania firm with world-leading measurement & inspection technology, is looking for a **Sr. Quality Assurance Representative**.

Our equipment incorporates multiple technologies including infrared light absorption, sonic, capacitive sensing and vision-based technology.

Agr International, Inc. headquarters is located in Butler, Pennsylvania (approximately one hour north of Pittsburgh). For additional information about our company and products, please visit our website at www.agrintl.com.

We are seeking an experienced Quality Management professional with experience in either glass container or plastic container manufacturing and testing with knowledge of both the container manufacturing process and critical quality attributes of commercially acceptable containers.

Primary Responsibilities:

Day-to-day responsibilities include:

- Creation, execution, and reporting of test plans to qualify the performance of new product designs or product design changes and report results.
- Development and execution of quality control plans for acceptance testing of produced products.
- Performance of quality assurance audits of equipment, processes and documentation.
- Creation, root cause analyses, and reporting of non-conformance cases including corrective and preventive actions.
- Agr equipment feasibility studies and other special assignments as warranted.
- Create, coordinate, schedule, and present technical service training materials for Agr global Sales, Marketing, and Service personnel.

Education:

Bachelor's Degree in Electrical Engineering or Electrical Engineering Technology, or A.A.S. in Electronics Technology, or equivalent.

Experience:

Minimum of five years of experience in glass container or plastic container manufacturing and testing.

Minimum of five years of experience utilizing and/or troubleshooting electro-mechanical laboratory or on-line test equipment.

Knowledge/Skills:

Knowledge of the container manufacturing process and the critical quality attributes of commercially acceptable containers.

ASQ quality training and/or certification in quality engineering.

Travel Requirements:

Possible travel to domestic and international sites in the range of 0 to 20 days per year.

We offer a competitive salary and comprehensive benefits package.

For consideration, please email resume and cover letter to srqarep@agrintl.com
