## **We are seeking an Assembler for our Stripheads Manufacturing Department.**

### **Job Summary:**

This position is part of a department responsible for following controlled procedures to transform a blank polypropylene strip into a finished product. Tasks include cleaning, priming, silk-screening, masking patterns, painting, soldering, potting, and testing of polypropylene strips. This position will also evaluate customer bottle samples and drawings to determine custom solution polypropylene strips. The keys for success in this position are to be an exceptional multi-tasker and possess the discipline to not stray away from well-established procedures.

### **Qualifications:**

Education or Experience:

- High school diploma or equivalent.
- Previous vocational / technical education with an electronics emphasis is a plus.

Knowledge and skills required:

- Exceptional multi-tasking skills.
- Ability to follow verbal and written instructions such as procedures, bill of materials, shop orders, drawings, and component identification.
- Ability to follow safety procedures and SDS requirements when handling chemicals such as cleaners, primers, and thinners.
- Proficient in reading basic blueprints.
- Good written and verbal communication skills.
- Use of Microsoft Word, Excel, and Outlook.
- Experience in hand soldering is a plus.
- Experience in electronics is a plus.
- Experience in silk-screening is a plus.

Physical requirements/abilities:

- Must be able to sit while performing job duties for extended periods of time.
- Must be able to stand and work under a paint exhaust hood while performing job duties for extended periods of time.
- Excellent manual dexterity.
- Must be able to lift 50 pounds, with assistance.

We offer a competitive salary and comprehensive benefits package.

For consideration, please email resume and cover letter to [assemblersh@agrintl.com](mailto:assemblersh@agrintl.com).
