

Agr International, Inc., is a Western Pennsylvania firm with world-leading measurement & inspection technology. Our equipment incorporates multiple technologies including infrared light absorption, sonic, capacitive sensing and vision-based technology.

Agr International, Inc. headquarters is located in Butler, Pennsylvania (approximately one hour north of Pittsburgh). For additional information about our company and products, please visit our website at www.agrintl.com.

We are seeking a **Production Planner** with the following qualifications:

- Bachelor's Degree in Business, Supply Chain or manufacturing-related technical degree
- APICS Certification in Production and Inventory Management (preferred)
- Experience in production planning in a manufacturing environment, to include creating, modifying, and maintaining production plans and assuring there are optimal stocking levels of materials to execute those plans in support of the approved Master Production Schedule, approved Spare Part Forecast, active customer orders, and internal demands.
- Thorough understanding and application of computer-based Manufacturing Requirements Planning and Execution system tools (Item data, BOM, MRP II, Purchasing, PAC, SFC, etc.)
- Strong knowledge of electro-mechanical manufacturing processes.
- Excellent communication skills (written and verbal)
- Ability to work independently and with minimal supervision
- Experience with PC-based office tools, word processing, spreadsheet analysis, email, internet usage and application

We offer a competitive salary and comprehensive benefits package.

For consideration, please email resume to ProdPlanner@agrintl.com.

EOE.
